Concisely summarize this month's activities.:

We had a meeting with Ernie Driscoll who is a professor at Flagler College. His students will be helping distribute our survey. Flagler College classes are back in session today. I am putting together a packet for the students who are assisting us; teaching them about Public Health and PACE EH. I will be meeting with them every week in our PACE EH community while we distribute our survey.

We set up our middle school water sampling project. Tommy Savarese, who is in our water program will be going to the school this September and teaching the students to take water samples. It is anticipated that he will analyze over one hundred samples submitted by the students.
