

# ***DO YOU HAVE PAIN?***

The Department of Anesthesia at the Brigham and Women's Hospital, located in Boston, Massachusetts is currently seeking adults 18 – 70 to participate in a 31-week research study to evaluate investigational drugs as a treatment for specific types of pain as a result of a Spinal Cord Injury (SCI). The study involves 5 or 6 hospital inpatient visits. Participants will receive up to \$1600 upon completion of the study.
