List of Septic System Additives in compliance with s. 381.0065(4)(m), Florida Statutes.

DATE: June 5, 2007

In accordance with s. 381.0065(4)(m), Florida Statutes, the following is a list of septic system additives that have been evaluated and found in compliance with the criteria in Rule 64E-6.0151, Florida Administrative Code.

It is important to stress that the Department's compliance determination of an individual constituent is not an endorsement or approval with respect to the benefit, effectiveness, or performance of the system additive. The Florida Department of Health assumes no liability for any promise, guarantee or expectation from the purchase or use of any additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after the product is evaluated by the department or subsequently found not to be in compliance with law or rule.

As additional additives are evaluated and found to be in compliance with s. 381.0065(4)(m), FS, and Rule 64E-6.0151, FAC, this list will be updated.
