

LISTING OF TANNING FACILITY SANITIZERS STATE OF FLORIDA DEPARTMENT OF HEALTH

Listed below are the brand names of sanitizers that have been found in tanning facilities around the state that meet the requirements of Chapter 64E-17 Tanning Facilities, F.A.C. and are approved for use. This is NOT an all inclusive listing as there are several other sanitizers that meet the code requirements. Be sure to use test strips to measure the sanitizers for proper concentration levels, such as 200ppm-400ppm for quaternary ammonia. There are specific test strips for quaternary ammonia which is the main ingredient in most of these sanitizers. If you come across more sanitizers, please contact VaKasha Brown at 850-245-4277 so that they may be added to the listing.
