

Healthy Start Redesign Committee Subject Matter Experts (work groups)

Goal: The Florida Healthy Start program seeks to improve maternal and infant health outcomes including reducing infant and maternal morbidity and mortality. The goal of the redesign project is to deliver effective, evidence-based services in order to improve maternal and infant health outcomes for Florida's residents.

Membership: Membership will include representatives from Florida Department of Health, Florida Healthy Start Coalitions, Florida Healthy Start providers, county health departments, consumers (as indicated), academia, and other state and federal programs. There will be a minimum of 10 subject matter experts with expertise in a scientific area, implementation experts, or those with experience with a population or specific setting. The membership may change to reflect the knowledge and skills required for each component from program development to funding methodology to evaluation.

Role: Subject matter experts will provide structured input and make the final recommendations to the Redesign Committee on all components of the redesign process to ensure the end result reflects the best available knowledge, is relevant to practice, and that information is complete.

Tasks:

Review materials and provide structured feedback throughout the 24-month project as follows:

- Provide input into literature review to identify gaps or concerns
- Recommend changes to the Healthy Start program to ensure consistency with the identified evidence-base
- Provide input into the redesign proposal to ensure the redesigned program will meet its goals; review the redesign proposal for final recommendation to the Redesign Committee
- Provide input into the monitoring plan to ensure critical elements are included and review the monitoring plan for final recommendation to the Redesign Committee
- Provide input into the implementation plan to ensure critical elements are included and review the implementation plan for final recommendation to the Redesign Committee
- Provide input into the final evaluation plan regarding appropriate measures and data collection methodology and review the evaluation plan for final recommendation to the Redesign Committee
- Provide input into the funding allocation methodology and review for final recommendation to the Redesign Committee

Work Flow: Subject matter experts will utilize an electronic platform to conduct their work and may participate in facilitated web-based meetings.
