However, in no event will accommodation be provided to exam candidates requesting special accommodation ten (10) days or less before the examination. Candidates must have approval for special accommodations before scheduling their examination with Prometric.

With the completed application for special testing accommodations, the candidate must provide documentation of his/her disability. Once you are seated at the examination computer, the process will be as follows.

Non-Disclosure Agreement

- Before beginning the examination, you will be **REQUIRED** to agree to a confidentiality clause stating that you will not share the content of the examination.

Tutorial

- An introductory tutorial covering how to move through the computer-based test will be provided before the examination time begins.
- Fifteen (15) minutes are allotted for the tutorial. This time does **NOT** count against the examination time.
- Sample questions are included following the tutorial so that you may practice using the keys, answering questions, and reviewing your answers.

Examination

- Each question will be shown on its own screen.
- You may move back and forth between questions.
- You may review your answers at any time during and after the examination, provided there is still time remaining.
- Minutes remaining will be displayed on the screen.

Post-Exam Survey

- An optional candidate satisfaction survey will be presented after completion of the examination. This data is used to continually improve the examination process.
- There is a space for notes in the survey for any comments you have regarding the testing process and/or individual examination questions.

Preliminary Score Report

- Your preliminary score will be given to you immediately following completion of the examination. Psychometricians continuously review DOH examinations in order to ensure fair, accurate, and consistent testing. Scores may be changed after expert review if they find a technical problem, misconduct, or unusual pattern in exam question responses. This means that your preliminary score report may not reflect your true score. This preliminary report is intended to give you a general idea of how you scored, but is not official or legally binding, and cannot be used to gain licensure or employment. Official examination results can be obtained after approximately ten (10) business days from:
<http://ww2.doh.state.fl.us/OnlineTestNET/default.aspx>
- **The following summary describes the preliminary score reporting process:**
- **On screen** – your preliminary score will appear immediately on the computer screen. This will happen automatically at the end of the time allowed for the examination; if you are using review features, you will be able to obtain your score immediately when you indicate that you have finished and would like to see your results.
 - If you **pass**, you will immediately receive a successful notification on the screen.
 - If you **do not pass**, you will immediately receive an unsuccessful notification on the screen.
- **On paper** – a preliminary score report will be printed at the examination site.

2.2 Content overview

- You will be given one and one-quarter (1¼) hour to complete the examination. Not including the fifteen (15) minutes for the tutorial.
- The examination consists of sixty-four (64) scored multiple-choice questions.
- Areas covered:
 - Florida Dental Practice Act Section 466, Florida Statutes
 - Florida Dental Board Rules 64B5, Florida Administrative Code

2.3 Pilot testing of new questions

The examination may contain a small number of experimental or “pilot” questions. The purpose of including pilot questions within the examination is to expand and improve the bank of questions from which future examinations will be drawn. This is a common practice used by many national and state examination programs and is a critical step in ensuring the continued reliability and validity of these examinations. In the event that pilot questions are included within the examination, these questions will NOT be counted when computing scores. The time allowed for testing has been evaluated to ensure there is adequate time for completing test questions and pilot questions. Pilot questions are NOT identified. If the pilot questions were identified, many of the candidates would skip them and the results would not be valid. The development of a good examination requires accurate candidate response information for the pilot questions.
