

Greetings to applicants required to appear before the Joint Committee on Anesthesiologist Assistants of the Boards of Medicine and Osteopathic Medicine.

Thank you for your application for licensure. The Joint Committee is entrusted with ensuring that all applicants for licensure meet the requirements established by the Florida Legislature. This committee meets in conjunction with the full Board of Medicine meetings. In order for the Committee members to review all the information that is provided for this committee, other committee meetings at the time, and for the full board meeting, a deadline for applications must be established and respected. With that in mind, the cut off for a complete application to be considered at the next scheduled Joint Committee meeting is six (6) weeks prior to the committee meeting. This deadline will allow time to submit the paper documents to the vendor to be imaged on CDs and then sent to the members for review. Board staff has been instructed not to submit applications after that deadline.

All Board and Committee meetings dates are posted on our web site at: <http://www.doh.state.fl.us/mqa/medical/>

It is our vision to be the nation's leader in quality healthcare regulation; therefore, be assured that we are focused on improving the services we provide to our applicants; it is our goal to make the licensure process positive for all.

Robert Cline, Chair
Joint Committee on Anesthesiologist Assistants
Florida Board of Medicine
