

The Division of Medical Quality Assurance is now sending renewal reminders on bright yellow postcards 90 days before your renewal is due. Please be on the lookout for this postcard. The card will provide the amount of the renewal, the deadline to renew and instructions for renewing. The card will direct you to log into online services and select to either renew on-line or to print off your renewal notice and mail it in with a cashier's check or money order. Renewing online is as simple as going to www.FLHealthsource.com, clicking on the "Renew My License" button on the homepage, and following the instructions. If you do not know your UserID and Password, the system will assist you in logging in after you answer several specific validation questions.

If it is longer than 90 days before your license renewal is due, the system may not yet be activated for your profession. If this is the case, please return to the online renewal system within the 90 days prior to your renewal due date.

If you have any problems using online renewal or other questions about your renewal, please contact the division's customer contact center at 850-488-0595 and choose option 3.
