SELECTION
CRITERIA

Creativity / Innovation: Organization, business or program is inventive, original and resourcefulness in addressing the behavioral risk categories specified.

Leadership: Organization, business or program actively encourages other Organization, business or program to engage in complementary or similar initiatives to address the risk categories indicated.

Sustainability: Resources and support are available for the organization, business or program. Characteristics include: a comprehensive plan and timeline for program activities; programming with evaluated and documented success; strong administrative support; looking beyond current grants to identify other potential or non-traditional funding; and following sound business practices.

Replicability: The organization, business or program can easily and effectively be duplicated or emulated by institutions/organizations.

Best Practices / Outcomes: The organization, business or program has achieved results/outcome measures (Ex: audience reach; participation; health outcomes; and/or financial outcomes). The outcomes used are consistent with the purpose of the organization, business or program.

National Recognition: Two additional points will be added to organization, business or program that has received a national award or recognition in the past two years.

State/Local Recognition: One additional point will be added to organization, business or program that has received a state/local award or recognition.

"X" = Something that stands out as a basis for making it a top contender for the Florida State Surgeon General 2009-2010 Health Innovation in Prevention and Management Awards in how it may exemplify the spirit of the Healthier Florida Initiative. A maximum of 3 ("X") bonus points may be added to a program's total score.
